Old Residents Plan Fourth of July Fete

Plans for a Fourth of July celebration were made at the regular monthly meeting of the Oldest Inhabitants' Association of the District of Columbia held at the old fire house, Nineteenth and H streets northwest, last night.

PUBLICITY RULES WORLD, BRITON TELLS AD CLUB

Sir Charles F. Higham On Way to Milwaukee To Get 1924 Convention for London.

"Publicity rules the world," declared Sir Charles F. Higham, M. P., at a luncheon of the Washington Advertising Club yesterday. "There is not a statesman in Washington who is not praying night and day that a newspaperman will be waiting at his doorstep to support him and his policies," he declared. "He can talk in Congress day after day and unless some genius in the newspaper world thinks enough of what he says to print the story he might as well go back to the little cabin in the little hamlet he came from and smoke his pipe the rest of his life."

Wants Convention for London.—Sir Charles said that he "was elected as an advertising man, knighted as an advertising man, and he hoped to die as an advertising man." He is on his way to Milwaukee, where there is to be a convention of the Advertising Clubs of the World. His purpose in going there, he said, was to endeavor to have the 1924 convention held in London. Washington is also desirous of getting the 1924 convention.

The visitor from Great Britain paid tribute to women. "There is not a thing men do, good or evil," he said, "that some woman does not make them do."

Standard Higher, He Says.—Sir Charles was introduced by Toastmaster Frederick William Wile, who as a newspaper correspondent in London went on the stump for Higham when the latter was running for Parliament.

William H. Rankin, head of the Rankin Advertising Agency, also spoke. "Advertising is higher now than it has ever been," he concluded.

Senator Edge Speaks.—Senator Walter E. Edge, of New Jersey, another advertising enthusiast, also spoke. He voiced the hope that Higham would be successful in getting the 1924 convention for London, because, he said, that would go a long way to cement relations between Great Britain and the United States.

A delegation from the Pacific Coast Advertising Clubs' Association was present. It included Dr. George M. Highland, of Portland; E. F. Blaine and L. E. Warford, of Seattle; A. C. Schmitt, of Albany, Ore.; Gordon Lee, chief of the automotive division, Department of Commerce, was also present.

This will be used as a basis for the final plans to be formulated by the board of directors of the Midvale Steel and Ordnance Company tonight, a statement was issued outlining the plan for the unification of the Midvale, the Inland Steel Company and the Republic Iron and Steel Company under the name of the North American Steel Corporation.

The exercises will end Friday with ordination services in the chapel of the seminary at 11 o'clock. The preacher will be Rt. Rev. William R. Stearns, D.D., bishop of Newark, N. J. About six or seven will be ordained.

SCHOOL TRANSFER WILL HELP HOUSE COLORED PUPILS

Board Decides to Add Armstrong Building to Eleventh Division.

OUTSIDERS BARRED

Wards of Guardians Living Beyond District Line Ruled Inadmissible.

Crowded conditions in colored schools in the vicinity of Twelfth and U streets northwest will be partly relieved by the action of the Board of Education yesterday in transferring the Armstrong School, now used by white children, from the fifth to the eleventh school division. The transfer is designed primarily to relieve Garrison School, where six portable buildings are being used by colored children.

White children from this school will be sent, it is stated, to the new Junior High. The Armstrong is regarded as one of the best in the fifth division, and its transfer is expected to do much to relieve the colored school shortage in the Northwest section near U street.

The board adopted a ruling prohibiting education in the public schools of children who are wards of guardians living outside the District and employed within the city. Although members expressed the opinion that the ruling might operate harshly in some cases, it was adopted upon advice of the corporation counsel to comply with an act of Congress.

Supt. Ballou was instructed to ask the District Commissioners to apply for an additional appropriation for the erection of Smothers School. Bids received for this building, a four-room school, do not come within the \$7,000 appropriation it was stated.

Following the open meeting, the board adjourned as a committee of the whole to consider appointment of teachers.

Over the Hills and Far Away

THERE'S nothing any driver likes better than the smooth, low hum-m-m of a perfectly running motor. To make a motor run that way you need an even flow of balanced gasoline into the carburetor.

Not every gasoline will do it
